Re: FOIA-2018-00760  
Complaints re one or more of the  
Liberty Power companies

Dear Mr. Preston:

This is in response to your request dated April 09, 2018, under the Freedom of Information Act seeking access to complaints regarding one or more of the Liberty Power companies. In accordance with the FOIA and agency policy, we have searched our records, as of April 09, 2018, the date we received your request in our FOIA office.

We have located approximately 763 responsive complaints. I am granting partial access to, and am enclosing copies of, the accessible records. These complaints, and portions of other complaints, are subject to two of the nine exemptions to the FOIA's disclosure requirements, as explained below.

We are withholding 1 complaint under FOIA Exemption 3, 5 U.S.C. § 552(b)(3), because it is exempt from disclosure by another statute; specifically, Section 21(f) of the FTC Act provides that the FTC may not disclose any material reflecting a consumer complaint obtained from a foreign source if that foreign source has requested confidential treatment. 15 U.S.C. § 57b-2(f).

Enclosed are 762 responsive complaints that consumers have sent to the Federal Trade Commission ("FTC"). You should know that the enclosed complaints have not necessarily been verified by the FTC. Therefore, you should make your own judgment about relying on the information provided. I am denying access to consumers' names and addresses, and any other identifying information found in the complaints. This information is exempt from release under FOIA Exemption 6, 5 U.S.C. § 552(b)(6), because individuals' right to privacy outweighs the general public's interest in seeing personal identifying information. *See The Lakin Law Firm v. FTC*, 352 F.3d 1122 (7th Cir. 2003).

Based on the fee provisions of the FOIA, 5 U.S.C. § 552(a)(4)(A), and the Commission's Rules of Practice, 16 CFR § 4.8 et seq., as amended, I am also enclosing an invoice for the charges we incurred for this response to your request.

Please make checks payable to U.S. Treasury and send payment to:

Financial Management Office, H-790  
Federal Trade Commission  
600 Pennsylvania Avenue, NW  
Washington, DC 20580

If you are not satisfied with this response to your request, you may appeal by writing to Freedom of Information Act Appeal, Office of the General Counsel, Federal Trade Commission, 600 Pennsylvania Avenue, N.W., Washington, D.C. 20580, within 90 days of the date of this letter. 6	01/24/2014	Bethesda	MD	70 - 79	Liberty Power Corporation	866	7693799	On September 19, a representative from Liberty Power Corporation (hereafter, LPC) named Alex called The World Market and spoke with the owner, Mr. (b)(6) with the aim of encouraging (b)(6) to become an LPC customer. (b)(6) explained that he already had a contract with a power company, Direct Energy, and that this contract was active through June 2014. (b)(6) told Alex that he would like a quote from Alex so he can compare LPC's rate to the current rate offered by Direct Energy. Alex assured (b)(6) that he would give him a quote and (b)(6) would be able to choose whether or not to accept LPC's power. Alex proceeded to sign (b)(6) up for service with LPC and assured (b)(6) that he could cancel his service without any fees. The account number given to (b)(6) is (b)(6). (b)(6), who is 75 years old and for whom English is his second language, proceeded speaking with Alex, believing that he was simply receiving a quote and he did not understand that he was verbally agreeing to sign up for LPC's services and that this was a legally binding contract. Alex told (b)(6) that he would send him paperwork related to their discussion. On September 21, 2 days after the phone conversation with Alex, (b)(6) called Alex at the phone number he was given (1-877-436-7162, ext. 3859) and told him that he did not receive any paperwork and that he decided not to switch his service from Direct Energy to LPC because Direct Energy's rate was better. Based on his conversation with Alex, (b)(6) believed he had no obligation to LPC. (b)(6) received a bill from Pepco dated December 3, 2013. The bill noted that Liberty Power was the power supplier for The World Market. On December 6, 2013, (b)(6) called LPC and explained to them that he believed he was a Direct Energy customer and that he had not intended to switch to LPC and that he called and told the LPC representative that he did not want LPC's service. (b)(6) then called Direct Energy and explained the situation to them and told them he never intended to switch to LPC and wanted Direct Energy's services. On December 19, 2013, (b)(6) received a letter from Direct Energy stating that they were now the energy supplier for The World Market. On December 31, 2013, (b)(6) received a letter from LPC stating that he was responsible for an \$1881.00 termination fee. On January 7, 2014, (b)(6)'s daughter placed a number of calls to LPC attempting to understand the situation. She spoke with 3 separate people and explained to them that (b)(6) did not understand and was very confused when he spoke with their representative Alex. She requested that they waive the termination fee since (b)(6) is an elderly man, he never received a paper contract from LPC and English is (b)(6)'s second language. Her request was refused. In addition to the \$1881.00 termination fee, (b)(6) has been billed a total of \$1155.48, which he has paid. We are asking for the termination fee to be waived and a refund in the amount of \$1155.48 because (b)(6) was not aware that he was signing up for services with LPC. He told the representative from LPC multiple times that he was only interested in a quote, he did not want LPC's services and he was under a contract with Direct Energy until June 2014. (b)(6) never received any paperwork from LPC outlining the terms of his contract.

At end of 1st year Liberty sent new 1 year contract which I signed and returned. Was notified by Liberty soon after that the new contract I signed had wrong rate as the wrong code for my business was used. I had no problem with that and awaited corrected contract which did not come for several months. During the time between end of first contract and getting the new corrected contract Liberty billed me the rate for a non contracted customer. I, however, continued to pay the rate I had under the first contract until I received the new corrected contract. Once I received the new corrected contract I adjusted the payments I made for the time between the old contract and the new corrected contract. The adjusted was based on the new corrected rate. Liberty, however, insisted that I pay the non contracted rate I was billed during this period. I refused stating that it was their mistake that caused the lapse between the old and new contract. I paid them the new rate which should have applied immediately after the old contract expired. Eventually they terminated my account for failure to pay the difference and then billed me another \$174 for early termination. Other-Other Update

I told them that I was not interested, and that my number was on the "Do Not Call" list, and requested that they not call again. They proceeded to continue to call at least 3 times a day. I answered the phone on another occasion, and this time someone was speaking in Spanish. I told them if they continue to call my number I would file a complaint against them. They apologized, and I did not get a call from that number for a few days. Now since after Christmas 2014 to currant time, today 1/12/15 they continue to call but now no-one says anything. I called the number back and they answered in spanish so I could not get the name of the company.I just called them again blocking my number, and was able to get a broken english speaking person and asked the name of their company and they told me its Liberty Power, I told him that I had requested they stop calling my number, and yet they continue to call, and now when they call and I answer they do not say anything. He told me that it is because they have to many clients to speak at the time. I told him, I am sorry, Your company Calls My Number and then refuses to speak, it is Not because your to busy to talk, your making the call, its called harrassment. I again told them Not to call my number. And also told them I was filing this complaint. I was unable to get the persons name at that time either.

25	06/17/2015	Palatine	IL	30 - 39	Liberty Power Corporation	866	7693799	This company has quite an extensive listing of complaints with the Better Business Bureau, so you may have them on record already. In case not, an Indian Female came to my parents apartment at 2100 hours and insisted that she "was" their service provider and was very persistent on seeing a copy of their current power/electric bill. When my mother was reluctant, claiming she had doubts of her affiliation; this unknown individual became increasingly persistent and claimed that seeing this bill was important and that she had made several other attempts to contact my parents prior. At this point my mother told her point blank; if she doesn't leave, the police will be notified; at which point she left. Before, Even, if she didn't make a false claim of being affiliated with our power company; their complex has blatantly posted signs saying "no solicitors" are allowed on premise. Nothing about this companies seems on the level to me and here are two additional articles to back-up these claims.... Website #1: <a href="http://www.bbb.org/south-east-florida/business-reviews/electric-companies/liberty-power-in-fort-launderdale-fl-23005899">http://www.bbb.org/south-east-florida/business-reviews/electric-companies/liberty-power-in-fort-launderdale-fl-23005899</a> Website #2: <a href="http://nypost.com/2013/03/14/state-to-crack-down-on-deceptive-electricity-seller-officials/">http://nypost.com/2013/03/14/state-to-crack-down-on-deceptive-electricity-seller-officials/</a> There is no compensation necessary, as my parents didn't give them any information/money, but I strongly believe you should investigate their business practices. Not even looking at my parents situation, but rather their track record with the Better Business Bureau; it's very apparent to me that this company is not conducting business on the level.
26	08/13/2015	Allston	MA	30 - 39	Liberty Power	186	6769379	Two men somehow got through the front door of my apartment complex and were going door to door, identifying themselves as representatives from the municipality of Boston helping citizens save money on their electric bills. They claimed a law entitled people to lock in a lower rate as long as the customer opted into the government sponsored program, aimed at protecting low income households (like my own). After asking them questions for over an hour (where they lied multiple times that they worked for the government, and not a private entity - Liberty Power) I became exhausted and signed their form. After they left, I went online and read about the Liberty Power scam of lying and coercion to get people to sign a contract where customers get stuck at a fixed, higher rate for electricity. I asked multiple times if I was signing a contract and was told explicitly no, another lie on their part. These people really need to be stopped as they target low income and immigrant households. I have higher level education and english is my native language, and yet I still succumbed to their scam!TOPIC:Referrals

Liberty Power knocked on her door, she usually doesn't answer the door, I don't know why she did this time, she must have been out there quite a while and I did n't hear her, because by the time I opened my door she was signing the IPAD. I asked the rep. who he was, he proceeded to tell me, first he was sent by ComEd( our power supplier) to check our bills to make sure we had the right supplier and he asked for my bill also, I didn't show him mine but I said ComEd is my supplier, he asked to see my bill. I asked again who are you, he stated I work for ComED. I told him none of this is true, its a scam, i'm going to check with ComEd. He told me while you do that I will check with your other neighbors. I called Liberty Power on 7/29/2016 at 8:30am to see if the contract went through. It had not showed up in their system. The woman was very understanding and sent a cancellation request right away. 38	01/16/2017	Burlington	MA	40 - 49	Liberty Power			Knocked on door on MLK holiday, pretended to be from state, offered lower fixed electricity rates, took down my address, phone number and photo of my current bill. Searched online and found them to be a scamming company with very high rates and fees. Browbeating other neighbors into signing up for contracts with early termination fees and other fees. Please issue cease and desist order.
39	01/21/2017	Wilkes Barre	PA	20 - 29	Liberty Power			A person knocked on my door claiming he needed to see our power bill and needed our personal information to be able to supply us with electricity. He claimed he was with Liberty Power and had a jacket with a company logo as well as an ID badge which I could not make out. I did not get any personal details about him and did not give out any of our details of our household. He claimed he was not working for PPL but that PP&L would need us to give him our info in order to keep our power on. I told him this was fraudulant and he continued to ensure me he was not going to switch our power over and he simply needed our information to continue our electric service. He said Liberty Power was based in Florida and was a reputable company but I have since learned otherwise. I told him to come back another day at which point he was aggressive in trying to get us to give him information now. I told him no and eventually he left. I feel he was fraudulant because he tried to say as little as possible and said PPL had sent him which I confirmed with PP&L that they had not. He made it seem like he was with PPL until I directly asked him if he worked for them, noticing his jacket. He was a average height black man with no significant details I can recall. His jacket was navy blue and he did have an ID badge in an orange holder with a black string around his neck. He also had a gold watch on. He talked very quietly and raspy as if to not let other people hear him. Other-Other Update

40	01/31/2017	Winthrop	MA	30 - 39	Liberty Power Corp	866	7693799	This company sends door to door representatives advertising cheap electricity rates trying to make you switch power suppliers. The first time the deal looked good. I called my utility provider and they said if that's what they are offering you should take advantage of it. However, the price they quoted was not the one they put on the contract when I received it a month later. I cancelled the service promptly, they waived their cancellation fee. A few months later I find out that one of their reps had signed my name on another contract without my knowledge or consent. Called the company again, they cancelled and assured me that would not happen again. Today they had sent another agent who talked to my father and tried to make him sign a consent form, although he didn't understand them. My father didn't sign anything. I am worried that I would find myself again into a contract that I didn't want or consent to. I plan on moving in the next few months, and if they sign on a contract without my knowledge I'm afraid I wouldn't know about it and it will affect my credit. Please help me with this company. This is very frustrating. Other-Other Update
41	02/15/2017	Carrollton	IL	30 - 39	Liberty Power			A door to door sales person led my wife to believe he was with ameren and checking on our rate plan, ade her sign up to lock in a rate for power usage. Did not mention he was with Liberty Power until after she signed a contract. She intaled her name even though my name is on the ameren bill. Then the salesman proceeded to ask for my phone which he then used to call and verify with Liberty Power. He pressed all of the buttons and had my phone in his hands. After doing some research we do not want to be in a contract with anyone. We would like to continue service with Ameren only. When we called this Liberty Power Company they are telling us we are in a contract and will have to pay to cancel with them. The entire time I feel like we were being pushed into thinking we were locking in a rate with Ameren. Please contact Liberty Power Corp Illinois. They are using deceptive practices to reel in customers. Other-Other Update

43	04/04/2017	Glastonbury	CT		Liberty Power	877	2899925	The caller ID shows incoming call "From 800 Service" with phone number of 877-289-9925. They have called every day for the past month and I have repeatedly asked them to stop! I spoke to someone 3 times who assures me my phone number would be removed and the calls would stop. This a rented unit and we don't get to choose our power supplier which I have also notified the company. These calls need to be stopped as this is illegal practice by this company. The government needs to make the phone companies more accountable for preventing fraud and scams to consumers as they are providing a service.
44	04/04/2017				Liberty Power	866	7693799	On the evening of Tuesday, April 4, 2017, a man named William Jones with Liberty Power knocked on my door multiple times and would not leave until I opened the door. He claimed that the city gave Liberty Power permission to be doing what he was doing. He said that Liberty Power was going to guarantee my electricity rate for two years and that he needed my current account to do it. I was very reluctant to provide him this information. I even asked to see the permit. He showed it to me. He said that Ameren would send me a confirmation letter in the mail and two gift cards. He told me this after I initialed and signed. I told him multiple times that I was not comfortable with providing my information and even asked if there was a way I could call Liberty Power and complete the process myself. He would not leave my apartment until I agreed to initial three boxes and sign. I initialed differently and did not sign my complete name. I did not pay and he did not ask me to pay. He did say that there would be a \$50 cancellation fee. Once he finally left my apartment, I tried to call Ameren, but it was after their customer service hours so I emailed them. I also went outside to look for some sort of official vehicle, but there was none. It is alarming that they were in my building because it has a locked entrance. I also researched the company online and read only negative reviews with similar experiences. I felt like I had no out while I was in the situation. I was so flustered and frustrated that he was not leaving that I did not think to just be rude and shut the door in his face. In general I feel like Liberty Power is taking advantage of young adults who need jobs by telling them that they will be doing residents good. I also feel as though Liberty Power is taking advantage of residents who are trying to be good citizens and give everyone a chance as well as people who are not fluent in the English language. For these reasons, I feel Liberty Power is not operating ethically. I understand that companies need to make a profit, but this needs to be done in a moral and ethical way. Other-Other Update
45	04/14/2017	Glastonbury	CT		Liberty Power	877	2899925	We received a phone call on 3:42 pm to our phone (b)(6) from caller id showing 18772899925. Upon answering and repeatedly saying hello, there was dead air and no one responded. The line was then disconnected on their end. I called the number back and was redirected to a general voice mail box. I left a message for the third time to request this company remove our phone number from their calling sequence. This company has repeatedly called our same phone line multiple times a day over the past month and half. In addition to the 3 voice messages I've left to remove our number, I have also called back and spoken to a person twice to tell them they MUST remove our number. Both times I was assured by the representative that our phone number would be removed. But yet again, they are still calling. We are a business and we lease our space so we are not in charge of selecting who our power supplier is. The company has been told this hence why they have NO BUSINESS calling us. Furthermore, this company is calling a phone number that has been taken out of public distribution for 5 years and is used solely for internal purposes so they further have no business calling our number. PLEASE HOLD LIBERTY POWER ACCOUNTABLE FOR THEIR ILLEGAL SOLICITATION PRACTICES. Any further calls are deemed harassment and they need to be made to stop making illegal calls.

50	06/28/2017	Acton	MA	30 - 39	Liberty Power	866	7693799	I received a knock on my door at around 8pm on Tuesday, June 27. There was a woman, Katrina Busser, with a Liberty Power company name badge and an ipad. She said she was from Liberty Power and wanted to make sure I was signed up for clean energy. She asked to see my electric bill to check that I was using clean energy. She said that I wasn't and then she proceeded to enter my information in her ipad, all the while talking to me politely and keeping up friendly chit chat. I was not wary of her as she had a name badge and a pamphlet with a phone number and website information, I had no idea that it was false information. After she entered my information in her ipad she proceeded to call a customer service number to make sure that I was signed up. She went through a lot of prompts on her phone and asked me to respond to a few of the prompts. The she asked me to sign three different times to make sure that I was getting the correct energy supply. I kept asking her if I was going to get a bill from the company. She kept insisting that I was only signing up for clean energy and that all my information and billing would still come from Eversource. She even showed me a website with company information when I asked. Now I know that it was a false website. She also mentioned that by signing up for clean energy, the way I would be charged for electric would not change with the fluctuating market. She said I was locked in for 24 months at a fixed rate. She mentioned that if I moved then contact them and they will make sure I am still receiving clean energy. She also mentioned that by signing up I would get a choice of a \$25 gift card to Target, Amazon, or a Visa gift card. When I gave her my email address she said that I would be receiving an email with the details of the plan and I should check my inbox when she left. She also said that I was going to get information in the mail too. She said that nothing was going to change with my Eversource bill except now my energy will be coming from wind rather than a power plant.

Since I live in a secured building, I believe that they were official. I questioned it several times and they said I did not have a choice, they needed to verify my bill for ComEd. When I gave it to them, I asked them many times to explain what they needed and why, but I did not understand. They seemed to keep changing what they said they needed from me. They had me sign a tablet, telling me that nothing about my service or billing would change and that it was protecting my service to ensure the cost per kilowatt did not increase over time. I said I didn't care and didn't want anything to change about my service or billing. They said I needed to do this anyway. They asked a lot more questions about my contact information and then had me fill out a survey confirming that they did their job. I was so confused that I contacted my landlord, who then told me they were solicitors, they are not with ComEd and they are not allowed in the building. Now I am trying to find out what they are doing with my information and if they are changing my service. 63	04/03/2018		IL	60 - 64	Liberty Power	866	7693799	I am writing on behalf of my son. He lives in a locked apartment building. Yesterday some sales (didn't realize this at the time) person got in the building and knocked on his apartment door. He could hardly understand the accent. They asked to see his ComEd bill and got his account number and address from his own bill. A very deceptive sales person, Alexandra Chiseliov told him ComEd is still delivering the electricity but they needed his signature on this device they were holding. They even tape recorded him saying he understood what he was doing. Obviously, he didn't. He then called me. While on the phone, this new company Liberty Power sent him the contract he just signed. He had no idea he was signing with a new company and cancelling his current company, ComEd. Liberty should be ashamed of themselves, going around soliciting unknowing people. I would like to know how they even got into the LOCKED building. My son is calling today to try to rescind the contract, if he can get a hold of someone. In the meantime, I have looked up this company and there are many complaints about Liberty Power and their deceptive practices. If you have any advice on what other steps should be taken, please let me know. Thank you. Other-Other Update

They call to try to get me to sign up with them. I let them know that I'm already on eod their customers. The calls continued. I then asked them not to call me anymore and to remove my number from their system. They began calling from different numbers. Again I told them I'm already a customer, remove my number. Then they started calling me and speaking spanish. I told them to stop calling me. Now they call me from "Private Numbers". I told them to stop calling me, I'm going to end my business with them, and I will be reporting the harassing phone calls. They call at random, at any time of day. They call from disconnected phone numbers: 203-308-4672 and 774-241-1006. The robocall says press 1 to talk to a representative and press 2 to be removed from the list. I've pressed 2 multiple times. I've pressed 1 and asked to be removed (they immediately hang up). I've pressed 1 and yelled. My number has been listed in the National Do Not Call Registry since 21-MAR-2012. Today I spoke with Liberty Power Vice President of Law and General Counsel Mr. Harris Rosen. Phone number: 954-598-7061. He was sympathetic to my concerns but made it clear that it is a third-party calling me trying to get a commission by connecting me to Liberty Power. The time of the call is approximate, since I was not there, and she doesn't have caller ID. My brother has twice told them not to call her, yet they continue to do so. They said they would not call her again, but that was obviously a lie. I believe they are preying on the elderly. She has been on the do not call list for years. I finally got one of them to tell me the company name by playing along with them. They make it sound like they are with Eversource if you ask them who they are.

Additionally I heard a delay after every thing I said so I'm pretty sure I was talking to someone in India. He said he was an energy consultant for ComEd. When I asked him if he worked for ComEd directly, I got a run around until he finally admitted that he worked for Liberty Power, a supplier to ComEd. I explained that I was on the do not call list and unless he worked for a company that I was presently doing business with, he was breaking the law by calling me. I called and canceled the electrical power service. No paperwork was filled out and nothing sent. They have called me many times since and each time I tell them I don't want their service, stop calling and they hang up, but still continue to call.	
								Was switched to a live representative, "Mark," who said he represented Liberty Power. He went through three bogus questions and told me I was eligible for a 15% discount on my electric supply for the next two years.	
								This person called and said they can give us a better deal than Atlantic City Electric. I said to provide a quote and he told me he could not provide a quote. I told him that we have been on "Do Not Call Registry" since 2009 and he is breaking law. I do not know if the phone number which came up on our caller ID is the correct number for this company, since he refused to provide me with his callback number.

I then told her that my number was on the Do Not Call list and, as I had no previous business dealings with her company, they were violating FTC regulations by calling me. 446	Y	Columbia	MD	Liberty Power Corp		11/26/2014	Received an automated call about lowering my electric bill. Curious as to the company, I pressed 5 to speak with someone. Eventually, a non-native English speaking woman came on the line wanting to sell me lower rates. But, I interrupted her and asked the name and address of the company she represented. She said Liberty Power Corp., 1901 West Cypress Creek Road, Ft. Lauderdale, FL. I then told her that my number was on the Do Not Call list and, as I had no previous business dealings with her company, they were violating FTC regulations by calling me. I also asked her to put me on their do not call list. Later, I found the Liberty Power website and it listed a contact number of 1-866-769-3799.

I told 2nd caller the same thing and I was not interested w/o written info and told him to take me off call list. 3rd caller today was told the same thing. Was very condescending. Kept pursuing despite my telling him not interested. I am also wondering how this company would get my phone number if I was on the FTC's Do Not Call list. PLEASE ADVISE

453	Y	Baltimore	MD	Liberty Power 443	6200380	10/29/2014	The robocall was inviting BGE customers to "lower energy costs". They invited to press 5 to speak to someone, and I did, waited a couple of minutes on hold and spoke to an "Energy consultant" named Claire. She offered to put me on "their" D.N.C. list, and I had her do that. I asked her if they respect the national do not call list, and she said that they do not use that. She did not seem to know about it.

I interrupted and asked if he bothered to check the National Do Not Call Registry to see that I am on the Do Not Call list, but he just said I am "not on his computer list", which he had in front of him. That sounded like a Do Not Call List for his business, but I said his company needs to pay attention to who's on the National Do Not Call Registry list, too. He agreed to put me on HIS list, but I said his company is supposed to check the National list, too - he just said he was "doing his job".

He said that my power company authorized him to call me because I had to pick a power supplier to protect my rate. I had the feeling that this was a mandate from the government or my power company (WMECO) and he implied that this was in conjunction with WMECO wishes. He Knew my bill format and lead me all over the bill to look at various items. Then he told me that my current rate is 0.13844 and that he can keep me at this rate for 48 months. He seemed irritated that I was skeptical and reluctant to take advantage of this program. then he said if I cancel this program it would cost me \$10.00 a month. I told him I was not interested and do not sign me up. I want no part in anything I have to pay to get out of. He was abrupt and said he would not submit the application. His name is David Charrez 888-531-5596 from Liberty Power. This is why I want the do not call.

494	Y	Westport,	CT	liberty power company - bristol, CT	860	5166030	04/24/2014	I have been called repeatedly during the day and at night by this number/company. Most times I do not answer the phone but 3 times I have answered and asked to be taken off the list. I asked for the caller today - Paul Sheldon and asked to speak to the manager. I was told the manager was not available and the person hung up. I tried to call the company and was put on hold for over 5 minutes - after which time I hung up. The Liberty Power website for NY says there are phone problems and ask for caller information to be completed in the website. I have a website for my phone service that will show each time a call came in and time and number of the call if that is needed. These calls are very disruptive and intrusive. Help me stop this aggravation.

537	Y		MD	Liberty Power 667	4011478	12/19/2013	These people keep calling. I keep asking them to stop and to remove my name from their list. it interrupts my work day and is a total nuisance. What will stop this. Caller voices sound out-sourced to India. sometimes, callers sound more US-based. I don't care where the person is from. No number appears on caller ID.	
538	Y		PA	Liberty Power 877	2899925	12/12/2013	They have foreigners calling non-stop. Please do something about it. This is the third call I have received in less than a week. Hit them with a drone strike or something. Thanks.

546	Y	New York	NY	liberty power 866	7693799	12/03/2013	Liberty Power is one of hundreds of companies which are selling "discounts" on electricity. Every month I get a dozen calls from these companies, despite the fact that my phone number has been on the DNC list for years. Does the do-not-call list have any teeth? Is there any enforcement?

555	Y	Lebanon	IL	Liberty Power 618	5375679	11/05/2013	Telemarketer wanting me to switch to Liberty Power. Obviously in Illinois the Do Not Call List means nothing to telemarketers. Caller ID indicated "LEBANON IL" so the phone number is probably spoofed. Liberty Power is located in FLA.

561	Y		MD	Liberty Power 877	2899925	10/24/2013	10/24/2013 Liberty Power (and their affiliates) have called us at least 100 times on our business phone numbers. Our office is small, but they have called each of our lines for the past several months. We continue to tell them to stop calling us. After doing some research, they have also been harassing others. We tell them to stop calling, and then we hang up. Not 1 minute later, we get another call. They must be getting paid to just keep calling. That must be their incentive. Liberty Power, and their calling affiliates, are scam artists.	
562	Y	Beecher	IL	Liberty Power 815	4759390	10/23/2013	This is the first known call I have received from this company. I did let them know I was on the do not call list and would be filing a complaint. I assume that is the same as letting them know to stop calling.

564	Y	Marengo	IL	Liberty Power 773	3090162	10/21/2013	Sounds like a scam, guy said was calling from Dominican Republic when finally answered it after multiple calls over course of a few days. Despite Chicago area code.	
565	Y	Marengo	IL	Liberty 773	3090162	10/21/2013	Lou's son (me) Lance Boyd answered finally after days consecutive of them calling and found out guy's name calling and he claimed it was "Rob Winter" and said company he was calling for was Liberty Power. He said he was calling out of the Dominican Republic when I asked where he was out of. He said the company was in IL. Sounds like a scam. I told him why are you a 773 Chicago area area code if calling from Dominican Republic? Spoofing? Tricking caller ID? He had no answer. Might want to pass along to FEDS sounds like a scam posing as power company savings switch sales pitch. Or Liberty Power if it exists is using out of country telemarketers to avoid US law. They should be fined if true and exist. Or have FBI investigate this likely scam.

583	Y	Sparta	NJ	Liberty Power		08/18/2013		Liberty Power called also on Aug. 10 in the afternoon. I told them then I was on the No Call List and they were NEVER to call again. At that call the person was unclear as to whether he was calling from Chicago or Ft Lauderdale (hum !) We have been getting a tremendous number of calls from power brokers.
584	Y	Hopatcong	NJ	Liberty Power 773	3090162	08/14/2013		I spoke to Michael Delancy and he said we would take me off their list. I have asked this company multiple times to do this and they have not.

600	Y	Buffalo Grove	IL	Liberty Power		05/07/2013		I am on the do not call list so this company should not have called. When I told the gentleman I wanted his company to not call me in the future he continued with his pitch. When I again told him to not call me he said "but sir, you don't know why I'm calling." I again told him to not call me and he again tried to give me his pitch. I then advised him I'd file a complaint about his firm with the FTC.

605	Y		NJ	Liberty Power 801	8933332	04/29/2013		The call was from overseas, and it was hard to understand the man through his thick indian accent. But, they should not be calling my phone at all. he claimed it was with regard to my electric bill. Meanwhile, I don't pay an electric bill (my parents do) and we do not have Liberty Power. Even if we did, they wouldn't be calling my cell phone. This is ridiculous. They're lying now.
606	Y	Galena	MD	Liberty Power 410	3465108	04/29/2013		This number may have been a private house since my ID on the phone said it was from Silver Run, MD. She represented Liberty Power. However she said she was from Liberty Power and wanted me to tell her about my electric power usage by giving information from electric bill. When I told her I was not interested in changing power companies, she became insistent I read her the information. We have Choptank Electric and she said she could not save us any money there. What a scam! This phone number has been registered many years with do not call.
